INDUSTRIAL TECHNOLOGIES

ITALIAN SPECIAL MACHINERY MAKER

Turnkey Solutions

Custom Made

Engineering / Project Management / Manufacturing / Installation / Commissioning / Service

CO.ME.A.

For different fields and applications.

Aimed by experience, dedication, passion and teamwork we focus on studying, designing and manufacturing the best technology equipment. Our mechanical, electrical, automation engineers and expertise technicians constantly work to satisfy specific customer's requirements.

We take care of the complete installation and commissioning according the highest standards of performance, safety and reliability. Guarantee, professionalism and know-how allowed us to be an excellent partner in our customers' worldwide projects.

Leader Cable Handling Equipment

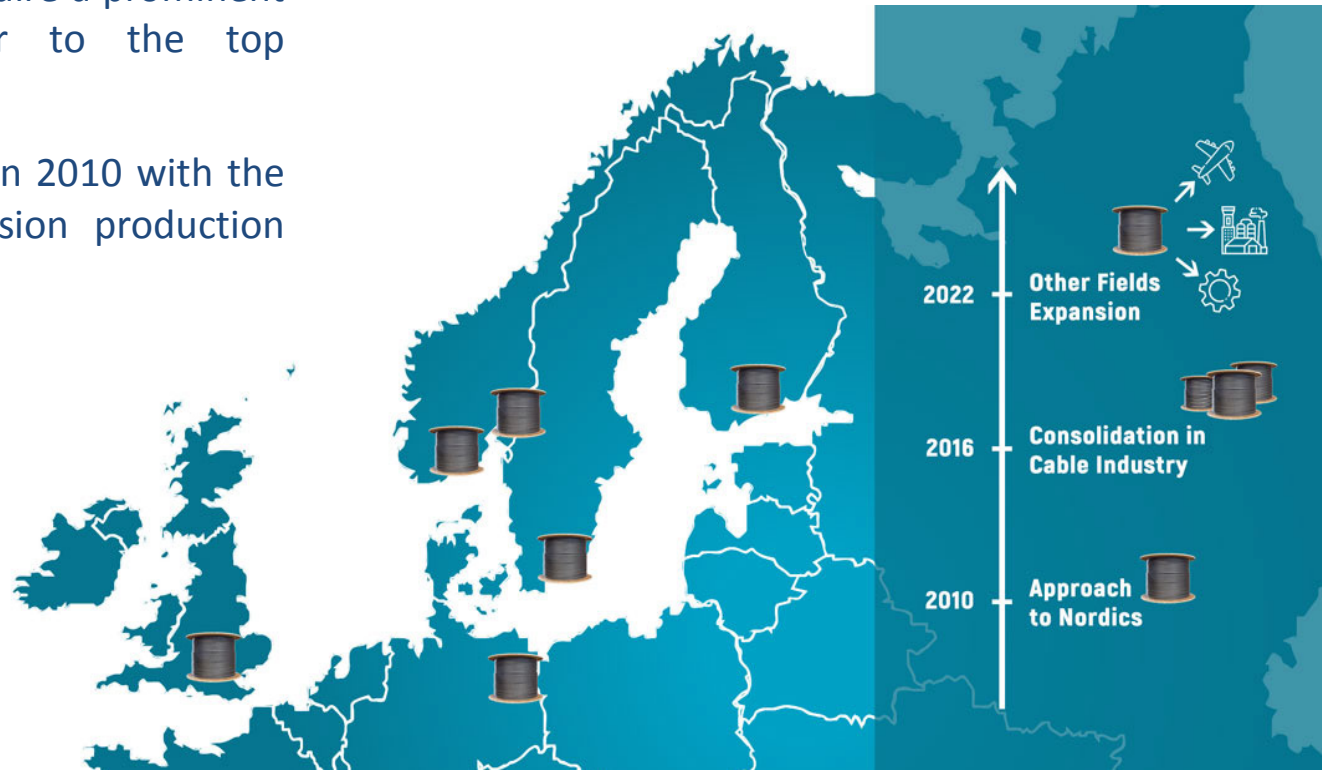

Submarine Cables Solution Provider.

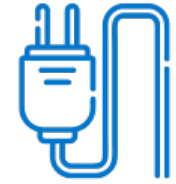

The experience accumulated in the cable handling sector has allowed CO.ME.A. to acquire a prominent position in Europe as supplier to the top manufacturers of submarine cables.

Our approach to the sector began in 2010 with the participation to customer's expansion production plant projects in Italy and Finland.

Thanks to the reliability, safety and technological excellence of our machines, we became year by year point of reference also in Sweden, Denmark, Norway, Germany and England.

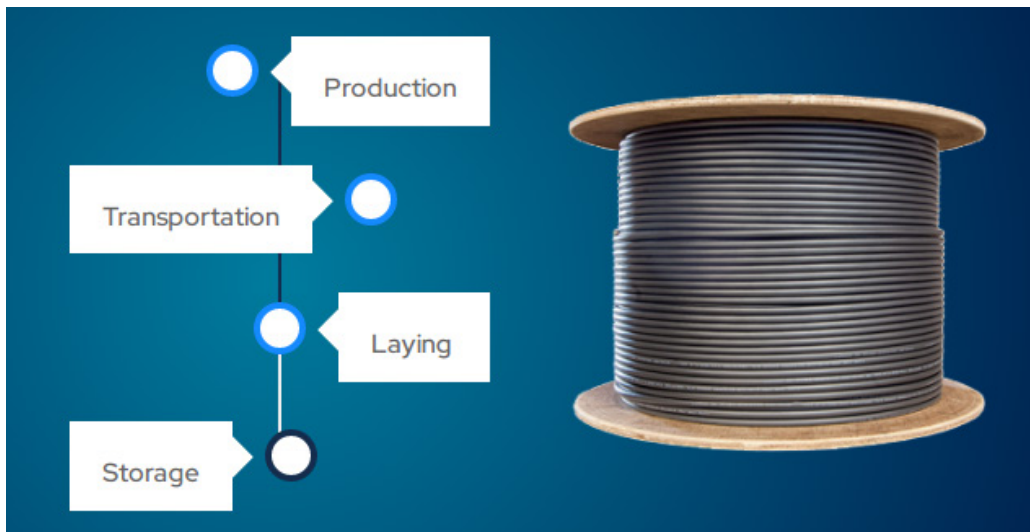

Total Solutions

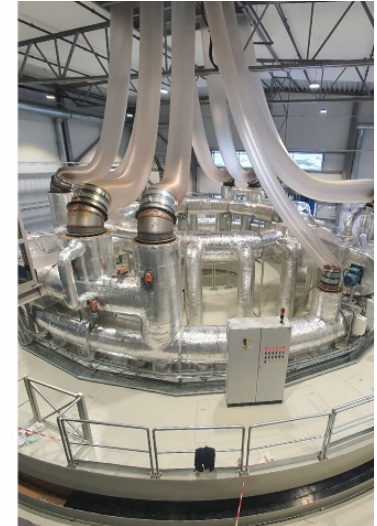

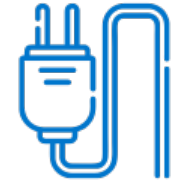

The equipments are projected with the scope to cover the entire cable lifecycle.

- ❖ Optimizing Cable Fabrication
- ❖ Minimizing cable damage

Partner GH Cranes & Components

Representation of Industrias Electromecanicas GH SA / Leader Company in Lifting Systems.

Since 2010, CO.ME.A. operates in Italy as Partner GH Cranes and Components, an international company dedicated to manufacturing hoists, cranes and components for all type of industries and applications.

Safe, robust and reliable solutions is what our more than 125.000 cranes installed around the world are currently doing.

With a presence in more than 70 countries in 5 continents and a team of 1.000 qualified people GH is considered one of the main European Manufacturers in the lifting sector and deputing to become a Worldwide Crane Manufacturer.

Products & Sectors

Cranes, Hoists, Spare Parts & Lifting Systems.

We offer to our customer lifting solution for each sector:

Aeronautics / Automotive / Renewable energies / Public Works / Iron & Steel / Sheet Metal Working / Foundry / Steel Handling / Waste Treatment / Paper Mills / Container Handling / Precast Concrete / Nautical / Shipyards / Railways / Stone Handling / Mining / Others.
